Wolli Talks 2013

Fantastic Fungi

Thursday 6 June 2013 at 7:00pm (display from 6.30pm)

Two lectures on fantastic fungi by Donald Gover and Dr Ray and Elma Kearney, all executive members of the Sydney Fungal Studies Group Inc.

7 pm

An introduction to fungi – Don Gover, followed by questions
Tea break (display of posters, books and CDs for sale)

8pm

Fantastic fungi: facts and findings – Dr. Ray and Elma Kearney, followed by questions

9 pm Finish

About the speakers:

Donald Gover is an amateur scientist and an engineer with a graduate diploma in mycology and plant pathology. He has written numerous mycological articles, presented public lectures, and is the co-author of the CD *The Fungi of the Sydney Region*.

Dr Ray and Elma Kearney were responsible for the listing, under the NSW Threatened Species Conservation Act, of a community of fungi for the first time in Australia. Both are recipients of numerous awards for contributions to the community, public health and biodiversity conservation.

Field study of fungi in Wolli Creek Valley

8 June at 10am. Bookings essential as numbers are limited:
email info@wollicreek.org.au or phone 0431 914 553.
