

Wolli Ck Fungi Species

Prepared by David Noble (Sydney Fungal Studies Group Inc)

Notes

- This species list is a record of some of the species of fungi found in Wolli Creek Regional Park.*
- It is not intended to be comprehensive.*
- Be aware that the names for species of fungi frequently change.*

Abortiporus biennis

Agaricus sp.

Aleurina ferruginea

Amanita farinacea

Amanita ochrophylla

Amanita punctata

Amanita xanthocephala

Aphelaria sp.

Armillaria luteobubalina

Aseroë rubra

Auricularia auricula-judae

Auricularia cornea

Austroboletus lacunosus

Boletellus ananiceps

Boletellus deceptivus

Boletellus emodensis

Boletus barragensis

Boletus haedinus

Calocera sp.

Calvatia craniiformis

Cantharellus lilacinus

Cantherellus concinnus

Ceratiomyxa fruticulosa

Chlorophyllum sp.

Clavaria fragilis

Clavaria pusio

Clavaria tenuipes

Clavulina cinerea

Clavulina cristata

Clavulina subrugosa

Clavulinopsis amoena

Clavulinopsis corallinorosacea

Clavulinopsis depokensis

Clavulinopsis sulcata

Collybia eucalyptorum

Collybia sp.

Coltricia australica

Conocybe apala

Conocybe filaris

Coprinellus disseminatus

Coprinus atramentarius

Cordyceps tenuipes

Cortinarius phalarus

Cortinarius rotundisporus

Cruentomyces viscodocruenta

Cyptotrama asprata
Dacryopinax spathularia
Delicatula integrella
Descolea recedens
Entoloma sp.
Galerina sp.
Geastrum pectinatum
Geastrum triplex
Geoglossum sp.
Gliophorus chromolimoneus
Gliophorus graminicolor
Gloeocantharellus novae-zelandiae
Gymnopilius junonius
Heterotextus peziziformis
Hexagonia sp.
Hexagonia tenuis
Humidicutis viridimagentea
Hydnum repandum
Hygrocybe anomala var. anomala
Hygrocybe astatogala
Hygrocybe aurantiopallens
Hygrocybe aurantipes
Hygrocybe austropratensis
Hygrocybe batesii
Hygrocybe collucera
Hygrocybe griseoramosa
Hygrocybe leucogloea
Hygrocybe miniata
Hygrocybe virginea
Hygrophorus involutus
Hypholoma sp.
Hypocrea gelatinosa
Inocybe calopedes
Inonotus albertinii
Laccaria laccata
Laccaria sp.
Lactaria eucalypti
Lepiota sp.
Leucocoprinus fragilissimus
Lichenomphalia chromacea
Lycoperdon perlatum
Lycoperdon subincarnatum
Macrolepiota clelandii
Macrolepiota sp.
Mutinus borneensis
Mycena nargans
Mycena sp.
Myriostoma coliforme
Nectria pseudotrichia
Omphalina umbrellifera
Omphalotus nidiformis
Parasola plicatilis
Phaeolus schweinitzii
Phellinus robustus
Phlebopus marginatus
Phylloporus rhodoxanthus
Pleurotus ostreatus

Pluteus romellii
Porpolomopsis lewellinae
Postia lactea
Ramariopsis crocea
Ramariopsis simplex
Rickenella fibula
Russula lenkunya
Russula marangania
Russula persanguinea
Russula rosea
Sanguinoderma rude
Scleroderma cepa
Stemonitis sp.
Suillus luteus
Thelephora terrestris
Trametes versicolor
Tremella mesenterica
Tricholomopsis rutilans
Tricoglossum hirsutum
Trogia sp.
Tylopilus ballouii
Xanthoconium sp.
Xylaria apiculata
